

## **Dynapac strengthens the presence on the Swedish market – joint company with Atlas Copco and new common service centre in Gothenburg**

**In order to create the strongest support-organisation in the business, on the Swedish market, Dynapac Nordic AB and Atlas Copco CMT has formed a joint company. A new state of the art service centre for the western part of Sweden marks the beginning of the new organisation.**

Dynapac Nordic AB, serving the Swedish market through a sales and service organisation, has formed a joint company with Atlas Copco CMT Sweden. The head office will be located in Nacka, Stockholm and Managing Director for the new company will be Markku Teräsvasara, present MD for Atlas Copco CMT Sweden.

*“This is a positive and future-oriented change. We are building a strong, joint organisation with focus on competence and national-covering support, says Markku Teräsvasara. For our customers this will mean that their present contact-persons will remain and at the same time they will get access to a larger service-network.”*

A new state of the art Service Centre was inaugurated on June 4 :th in Gothenburg. At the same location customers will find the sales and service for light construction equipment, road building equipment, portable air and generators.

Dynapac and Atlas Copco are two Swedish companies, both pioneers within their respective fields. They are considered world leading manufacturers of innovative equipment and services within the construction and road building areas.

Part of the Atlas Copco Group
